The large games room offers table tennis and snooker, there is a plasma TV just for gaming, please bring your own PlayStation etc and games. Nearby is a lake for swimming and tennis courts which means there's always something to do.

Just a mile away is the Lac de Jouarres - it's worth a visit for the scenery alone, but you'll also find opportunities for windsurfing, kayaking, boating, fishing and other watersports from its shores. This is also the nearest beach for swimming, at only a 25 minute walk away. For sea swimming, the Mediterranean is a 35 minute drive away where Narbonne Plage or Valras-Plage greet you with endless vistas of golden sand to play or relax upon.

## OUTSIDE

The garden is ideal for children, with high walls and gates providing a great deal of privacy for the large Mediterranean courtyard and outbuildings. The landscaped garden has mature plants, flowers and trees, in particular two magnificent plane trees which offer lovely shade for eating outdoors near the large barbecue area - which looks absolutely stunning when it's lit up at night.

Sliding glass doors made difficult for toddlers to open lead from the garden to the indoor pool and on top of the barn you'll find a superb roof terrace with views over the village. Step out of the house gates and

## Location

The sun-baked Minervois region is bursting with history and spans the departments of the Hérault and the Aude. It's filled with ancient Cathar villages and vineyards under wide, open skies.

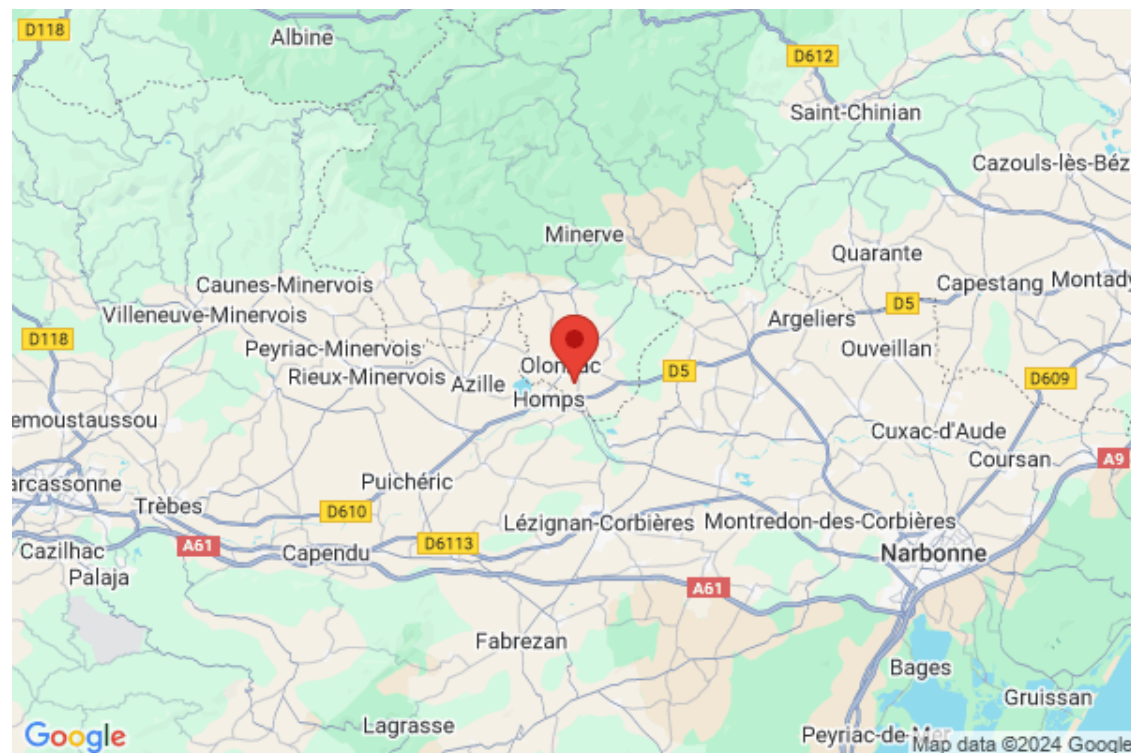

The village of Olonzac is the capital of the Minervois and is lively and energetic all year round, and on Tuesdays hosts one of the best weekly markets in the area. The village has everything you'd ever need: cafés, bars, restaurants, grocery stores, bakers, wineries, butchers, doctors, a pharmacy, a hairdressers and more.

Only two miles away, the Canal du Midi runs through the village of Homps, where you can stroll along the banks in the shade of the trees or take a boat trip and relax on the water as you watch the world go by! The Canal du Midi is an UNESCO World Heritage Site - this 360 km network of navigable waterways links the Mediterranean and the Atlantic through 328 locks, aqueducts, bridges and tunnels and is one of the most remarkable feats of civil engineering in modern times. Built between 1667 and 1694, it helped pave the way for the Industrial Revolution.

The village of Minerve is only 20 mins away, and has been selected as one of Les Plus Beaux Villages de France! Near the village the river disappears underground in a large, naturally-carved tunnel which can be explored by the more adventurous in your group.

Within the village there is a sizeable artistic community and many of their workshops are open to the public.

During the summer season, the Lac de Jouarres has lifeguards and there is a restaurant/snack bar and sun-loungers for public use. You can walk the perimeter of the lake in just over an hour, and the swimming area has been prepared using pebbles and geotextiles to prevent weed growth. The sailing/fishing areas are away from the bathing area, so there's no need to worry about the two activities overlapping! In the summer season, a range of surf board courses is on offer in the sailing area. Only a 25 minute walk away.
