Description

This is a great villa. It has everything one needs to relax in total comfort, especially by the pool. Five minutes away is the small gem of Pernes-les-Fontaines, a typical Provencal market village offering a selection of small bars, restaurants and the wonderful market with mouth-watering melons, tomatoes and juicy apricots, as well as olive oils, lavender honey and the typical French goat cheese, quaintly wrapped in autumn-tinted chestnut leaves which are the perfect match for Provence's delicious rose' wines. What a place to experience a French lifestyle!

This is a substantial property consisting of two independent wings interconnected via a covered passage, ideal for two parties requiring a certain degree of privacy. The interior is elegant and sophisticated, with minimalist furniture and sleek furnishing. Each individually appointed bedroom enjoys bespoke en suite facilities and its own access to the terrace and lush garden. The large pergola extends the indoor living space into the garden, providing the perfect setting for pleasant social gatherings and dinners al fresco. Why not take an invigorating swim in your own private pool and then soak up the sunshine and the surrounding beauty?

This is quintessential Provence with extensive lavender and poppy fields, forested hills, the peaks of the Dentelles de Montmirail mountain range with Mont Ventoux proudly towering over them, the Grand Luberon park and its many quaint villages full of character and unaltered charm. Pernes-les-Fontaine, often referred to as one of France's prettiest villages, is just over one mile away from this villa, offering visitors the chance to sample local flavours and to fully immerse themselves in Southern France's slow pace of life. This area is dotted with many attractive towns, all within easy reach of this property; Carpentras, Sorgue, Avignon, Orange would make very enjoyable day trips from this exclusive contemporary property.
