Provence. Nature is all around you as you stroll in a landscaped garden, surrounded by fruit trees and a field of wonderful lavender. The atmosphere is heady from the myriad Mediterranean essences. You will be amazed by the old "bories" and ruins you will come across in the middle of the park. Meanwhile, in the Provençal courtyard which is shady and protected, you will find a shady corner to enjoy a coffee, a refreshing tea, a 'gouter' or an apéritif. In the centre of the courtyard is a big fountain fed by spring water.

The stone house, 400 square meters, is completely renovated and has air-conditioning throughout (in every room). All 8 bedrooms are decorated with Travertine stone (toilets, Italian showers and bathtubs). The Provençal kitchen has a central island and all you need to make wonderful meals if you so wish. In addition, to enhance the luxury of your surroundings, you can enjoy the Finnish sauna, a Jacuzzi in the heart of nature, looking over the heated swimming pool and hammam. The spa is supplied with essential oils, as is the Finnish sauna.

The pool is 75 m² and is protected at night by an electric curtain. There is also an outside shower.

Note the big fireplace and sound systems inside and outside for your musical evenings.

You can take advantage of garden furniture situated near the swimming pool and the multiple areas to dine alfresco.

And under a shady pergola, you'll find another seating area with 16 deckchairs.

You will discover an immense space for lunches and dinners with a huge barbecue and a stone kitchen sink, a plancha and a pizza oven. In front of the summer kitchen are two big stone tables where more than 20 guests can have lunches or dinners. This alfresco dining area is shaded by an iron pergola covered with Virginia creeper.

You will find a second area dedicated to dinner situated under the terrace lining the lounge not far from the kitchen, and with space for more than 20 guests.

Varied walks are possible in the landscaped garden with its fountains and statues, in the Forest of Cedars, in the private park, or in the field of lavender.

There are loads of activities to while away the hot summer days and the balmy evenings: table tennis, the kiddies' swing, an area for playing boules, a fitness space, a field for soccer or handball, a basketball area, table football, and a castle slide.

Two cotton hammocks await those who dream about a well-deserved rest after all the sports activity.
